All dollar amounts are Canadian, unless otherwise noted.

Vancouver, British Columbia, July 31, 2026 – **Element 29 Resources Inc. (TSXV: ECU | OTCQB: EMTRF | BVL: ECU)** (“**Element 29**” or the “**Company**”) announces that it intends to complete a non-brokered private placement (the “**Financing**”) of up to 7,272,727 common shares (each a “**Share**”) of the Company at a price of \$1.65 per Share for aggregate gross proceeds to the Company of up to \$12,000,000, which is fully committed with participation from strategic investors.

Use of Proceeds

The net proceeds from the Financing will be used to fund exploration activities across the Company’s portfolio of copper projects in Peru, including the flagship Elida, as well as the Flor de Cobre and Paka projects.

Financing Details

The Company may compensate certain finders a cash fee equal to 7% of the aggregate gross proceeds raised from subscriptions under the Financing arranged by such finders.

The Financing remains subject to final acceptance by the TSX Venture Exchange. All securities issued pursuant to the Financing will be subject to a statutory four-month-and-one-day hold period from the date of issuance.

This press release does not constitute an offer to sell or a solicitation of an offer to buy nor shall there be any sale of any of the securities in any jurisdiction in which such offer, solicitation or sale would be unlawful, including any of the securities in the United States of America. The securities have not been and will not be registered under the United States Securities Act of 1933, as amended (the “1933 Act”) or any U.S. state securities laws and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. Persons (as defined in Regulation S under the 1933 Act) unless registered under the 1933 Act and applicable U.S. state securities laws, or an exemption from such registration requirements is available.

About Element 29 Resources Inc.

Element 29 is an emerging junior resource company with a highly experienced management team and board focused on the discovery and advancement of copper projects in Perú, one of the lowest-cost, lowest-risk mining jurisdictions globally. The

Company's flagship project is the Elida Porphyry Cu-Mo-Ag Deposit in west-central Perú which has an initial pit-constrained inferred Mineral Resource Estimate¹ of 321.7 million tonnes grading 0.32% Cu, 0.03% Mo and 2.61 g/t Ag at a 0.2% Cu cutoff grade. Alongside Elida, the Company has three (3) early stage, highly prospective porphyry Cu projects in Perú that include the Flor de Cobre porphyry Cu-Mo prospect situated in the Southern Perú Copper Belt, just 26 km from the Cerro Verde copper mine² (Freeport-Buenaventura) as well as the Paka and Pahuay porphyry Cu skarn prospects. All projects are well located for future mine development and will benefit from nearby infrastructure including roads, power infrastructure, ports, water, and a skilled workforce.

Cautionary Note Regarding Forward-Looking Statements

This press release contains certain forward-looking information and forward-looking statements within the meaning of applicable Canadian securities legislation (collectively, “Forward-looking Statements”). Any statements that are contained in this press release that are not statements of historical fact may be deemed to be Forward-looking Statements. Forward-looking Statements are frequently, but not always, identified by words such as “may”, “will”, “intends”, “proposed”, “believes”, “continues”, “plans”, “expects” or similar expressions (or the negative and grammatical variations of any of these terms). Forward-looking Statements in this press release include, but are not limited to, statements with respect to the completion of the fully-committed Financing, the use of proceeds of the Financing, the Company's resource properties and future capital requirements; and the Company's plans, focus and objectives.

Forward-looking Statements involve various risks and uncertainties and are based on certain factors and assumptions. Although Element 29's management considers these beliefs and assumptions reasonable based on currently available information, there can be no assurance that such statements will prove to be

accurate, and actual results and future events could differ materially from those anticipated in such statements. Forward-looking Statements necessarily involve known and unknown risks, and important factors, among others, that could cause actual results to differ materially from the Company's expectations include: the Company obtaining financial acceptance of the Financing from the TSX-V; the timeliness and success of regulatory approvals; fluctuations in copper and other commodity prices; uncertainties inherent in the exploration of mineral properties; risks associated with general economic conditions; changes in legislation, income tax and regulatory matters; currency and interest rate fluctuations; inability to access sufficient capital from internal and external sources; and other risk factors set forth in the Company's prospectus under the heading "Risk Factors".

Readers are further cautioned not to place undue reliance on Forward-looking Statements as there can be no assurances that the plans, intentions or expectations upon which they are placed will occur. The Company undertakes no obligation to update or revise any Forward-looking Statements, whether as a result of new information, future events or otherwise, except as may be required by law. New factors emerge from time to time, and it is not possible for Element 29 to predict all of them or assess the impact of each such factor or the extent to which any factor, or combination of factors, may cause results to differ materially from those contained in any Forward-looking Statement. Any Forward-looking Statements contained in this press release are expressly qualified in their entirety by this cautionary statement.²This news release contains information about adjacent properties on which Element 29 has no right to explore or mine.
